DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6, 8-9, 11-20, 22-24, and 26-31 are allowed (renumbered as 1-27).

2. The following is an examiner's statement of reasons for allowance:

Many references in the art disclose an apparatus for obtaining information about object in an environment around a vehicle including a light emitting means; a receiver means; and a processor coupled to the receiver means for providing an indication in display indicating that the object is within the sensing volume, such as found in Scully (US 6,363,326). The prior art of record does not teach or suggest, in the claimed combination, a measurement means coupled to the light emitting means and the receiver means for measuring time between emission of the infrared and reception of the infrared whereby the measured time correlates to distance between the vehicle and an object from which the infrared light is reflected and a processor coupled to a receiver means and arranged to determine an identification of an object from which light is reflected based at least in part on the received infrared light, the processor being arranged to create a three-dimensional representation of a portion of the environment surrounding the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
